NEW FACULTY JOIN USD SCHOOL OF NURSING

Appointments of new faculty to the Philip Y. Hahn School of Nursing, University of San Diego, for the 1982-1983 academic year have been announced by Dr. Irene S. Palmer, dean of the School.

Regina C. Aune, B.S.N., M.S., Ph.D. candidate, will join the faculty as instructor. Prior to joining USD she was an instructor in Family and Community Health Nursing at the University of Utah College of Nursing in Salt Lake City. She has been completing her doctoral work at the College of Education, with an area of specialization in educational administration, focusing on organizational studies. As staff nurse and flight nurse with a commission in the U.S. Air Force, Aune has twice been honored for heroism and voluntary risk of life, once in 1975 when she was awarded the Airman's Medal, and again in 1976 when she became the only woman recipient of the Cheney Award. She is a member of the American Nurses' Association, the National League for Nursing, and the Association of Military Surgeons of the United States.

Joan Goldstein, appointed associate professor at USD, holds a doctorate in educational psychology from Northern Illinois University and since 1980 has been chairperson of the School of Nursing at the Medical School of Georgia in Augusta.

A registered nurse, she received the Master of Science degree in Community Health Nursing and holds a baccalaureate in psychology from St. Xavier College, Chicago. Her teaching experience includes a professorship with the University of Michigan. Current research includes study of the association of noise and hypertension and a new holistic theory of nursing. She is a member of the American Nurses' Association, the Council of Nurse Researchers, the American Public Health Association, and World Futurists, and is a board member of the Health Central Wellness Center of Augusta.

The program of the Philip Y. Hahn School of Nursing is designed for the Registered Nurse wishing to obtain the Bachelor of Science Degree in Nursing. The School also offers graduate programs leading to the Master of Science in Nursing, with areas of study in Family Health Nursing, Advanced Psychiatric Nursing with a clinical specialist emphasis, and School Health Nursing. The program has been approved by the National League for Nursing.
